

Officer Attestation - Security Function

Distributed Systems, Inc.

Prepared October 6, 2026 for the Anthropic Cyber Verification Program

Signed October 6, 2026 using the signature supplied by Arthur Colle

I, Arthur Colle, Founder and Chief Executive Officer of Distributed Systems, Inc., attest that I am the company's accountable infrastructure security lead. I am responsible for authorizing security assessments, vulnerability triage and remediation, and responding to security and misuse alerts.

The company's Infrastructure Security function sits within Research & Engineering. It currently consists of one person, Arthur Colle. The granted workspace will be used only by this named security-function member for authorized defensive assessment of company-owned or maintained systems and expressly authorized research environments. The company's approximate employee count is one.

The work covers DSCO, Chimera, Tool Management API, GraphSub, authentication and authorization services, model-routing gateways, and distributed execution infrastructure. Controlled testing and planned evaluations follow written rules of engagement covering authorization, scope, time windows, stopping conditions, findings, and remediation. Current public corroboration names the security lead at <https://distributed.systems/people#security>.

The security contact and approved user's company email is arthur@distributed.systems, using the company-controlled distributed.systems domain. Workspace membership and application statements must remain accurate, and changes will be reported as required by the program.

This attestation names the present security lead and function. It makes no claim of an independent audit, ISO 27001 certification, SOC 2 report, paid bug-bounty history, or published CVEs. Separate security-control declarations in the portal must be reviewed against controls actually in place before submission.

Officer: Arthur Colle

Title: Founder and Chief Executive Officer

Signature:

A handwritten signature in black ink that reads "Arthur M. Colle". The signature is written in a cursive, flowing style. The first name "Arthur" is written in a larger, more prominent script, followed by "M." and "Colle". The signature is centered within a light gray rectangular box.

Date signed: October 6, 2026
